Why do you serve on the Jr. Board? Montevallo was a great place for me! I may not have been the best student but I learned a lot about myself during my years at Montevallo. I wanted to be on the Junior Board so maybe now I can help the institution that helped me so much. Also, I think it is alum's duty to give back to the University.

Why should other young alumni get involved? This is a chance for everyone to give back, a way to bring new blood, ideas and excitement to the University of Montevallo. Montevallo could not run without alumni support. So, it is our duty to make sure we stay involved and keep Montevallo a place we can call home whenever we decide to come back.
