**4. I have reviewed my academic records and**

\_\_\_\_ I have met with my dean/advisor and developed an academic plan that is attached. I understand I have to be meeting the SAP requirements of the academic plan at the end of the semester(s) to continue to be eligible to receive Federal Student Aid. Even if you think you may regain eligibility after one semester or graduate after one semester, you should submit the academic plan. Many times the student's understanding of their academic standing and graduation requirements do not agree with the University's requirements. This is for your benefit.

I would like to have my federal aid reinstated. If approved, I understand that this is only for a specified period of time.
