

UMAlert: University of Montevallo's Emergency Alert System

The University of Montevallo utilizes a state of the art, rapid alert system called **UMAlert**. This system provides members of the UM community with the most advanced rapid communication program currently available for schools.

UMAlert enhances the timeliness of UM's emergency communications and provides the University with a convenient and effective tool for informing students, faculty and staff of human or natural threats.

Through **UMAlert**, members of the University community, whether on campus or not, can be notified within moments of an urgent event. Emergency messages can be sent via telephone (landline and cell), voicemail, text messaging and email.

New user accounts are automatically registered twice a month (on the 1st and 3rd Wednesdays). Students may add parent emails/phone numbers as needed to their **UMAlert** contact list if they would like their parents to receive the alerts. To login, go to www.myschoolcast.com/go/um/ and use your official UM username and password.

If you have any questions or log-on issues, or if you have forgotten your log-on information, please e-mail umalert@montevallo.edu.
