

2020 Earth Day Journal Prompt

Instructions: Write a thank-you letter to the Earth. Use the below as a guide, if needed. In your letter, describe your favorite outside spot. List some ways you and your family could celebrate Earth Day. The first Earth day was 50 years ago. Imagine how the earth looked back then and how you want the Earth to be 50 years from now. Feel free to include some drawings on the back of a few cool things you have seen in nature! When you're finished, send us a picture of your letter to eeprograms@montevallo.edu or tag us on social media using the links at the bottom. We'll feature a few online in honor of Earth Day!

Dear Earth,

Thank you for _____.

My favorite place to go outside is _____.

I love going there to _____.

We can celebrate Earth Day by _____

_____.

I think 50 years ago Earth was _____.

In the future, I hope Earth will be _____.
