*Participating member of the interstate agreement, arranged by National Association of State Directors of Teacher Education and Certification (NASDTEC). This is a collection of over 50 individual agreements by states and Canadian provinces. Each individual "agreement" is a statement by that state or jurisdiction outlining which other states' educator certificates will be accepted by that state. Specifically the agreement outlines which particular types of educator certificates (teachers, administrators, service personnel, or career/technical), and which particular styles of certifications (titles, fields, etc.) will be accepted.

Such an "acceptance" agreement means that the "receiving" state will issue some form of authorization allowing the inbound certificate holder to legally teach or provide service in the receiving state, provided the license issued by the "sending" state is acceptable under the agreement. This authorization may be limited in time by the receiving state, and the receiving state may impose additional requirements, which need to be accomplished before the educator can teach or practice after the end of the time limit.
