10	SPED540	5/8/2020 10:29 PM
11	SPED 440-301	5/8/2020 3:56 PM

Q3 List those things that you perceive as strengths or aspects of your degree program that are most valuable to you.

Answered: 11 Skipped: 0

#	RESPONSES	DATE
1	A lot of support from teachers and in depth learning with observations. Really went above and beyond moving this to online quickly due to Covid-19.	5/24/2020 11:15 PM
2	I love the aspect of watching children succeed regardless if they are exceptional learners or general educational learners. It is very rewarding to see them succeed and overcome many obstacles.	5/22/2020 10:45 PM
3	1. We have the absolute best professors! Everyone is always so understanding and supportive. I know that if I ever need any assistance whether its school related or personal, there is someone in our department willing to help me and give me extra encouragement. 2. Everyone in our department sticks together! No mater what level of the program you are at, their is always someone willing to give you a hand and pass on some of their knowledge to better prepare the rest of us for when we get to that stage in our degree. 3. Not only to we have super supportive professors, but also professors that are very good at what they do. I always feel more and more prepared for my life outside of college each class that I finished. Being a teacher is no joke, but we have some of the best teachers modeling for us what a good teacher looks like!	5/22/2020 12:32 AM
4	Without a doubt, the professors are the best part of this program. Each one is compassionate, knowledgeable, prepared, and excited about education. I could never put into words how thankful I am to have professors who give me applicable advice and empower me daily. I leave class more excited to teach, and hungry for more information. This program does a great job giving us the "meat" and connecting us to resources that I know we will use in the classroom. This program provides extensive "real life" learning experiences that allow me to feel fully prepared for the next steps in completing my degree.	5/20/2020 5:19 PM
5	The teachers are amazing! Dr. Cost has done an amazing job with the SPED 440 course!	5/16/2020 2:21 PM
6	I love how supportive and helpful the professors are.	5/14/2020 10:47 AM
7	The professors are amazing. They have tons of experience to give us real life scenarios in these unprecedented times.	5/13/2020 12:20 PM
8	The professors, school collaborations	5/11/2020 12:42 PM
9	Learning how to be in a special education classroom. How to approach collaboration. Learning how to appropriately accommodate and modify plans. BIP/IEP All of the learning aspects, things that would be found in a textbook, have been great.	5/11/2020 11:24 AM
10	It is hard to say as "distance learning" is currently dominating how things are being handled. I will say the professors are extraordinary and very helpful and available.	5/8/2020 10:29 PM
11	Extremely helpful professors	5/8/2020 3:56 PM

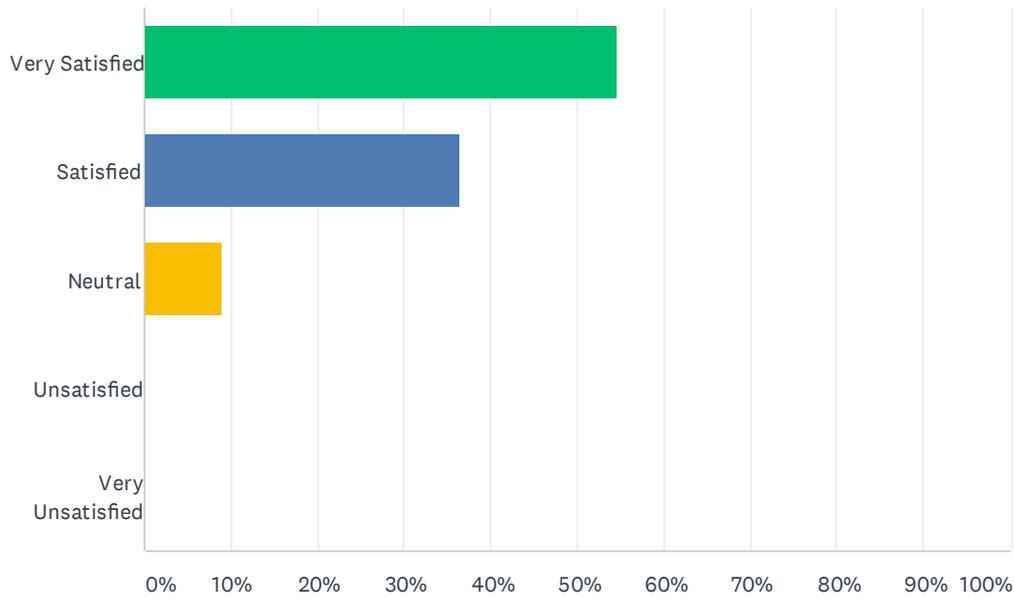

Q4 List those things that you perceive as growth areas or specific ways in which your degree program could be improved.

Answered: 9 Skipped: 2

#	RESPONSES	DATE
1	More SPED observation areas. A lot of classrooms we are put in that are collaborative are not.	5/24/2020 11:15 PM
2	I think the program can improve by using better communication with students.	5/22/2020 10:45 PM
3	1. Outside of the pandemic, when things are back to normal I really think that we need to stay away from online classes. The online classes I have taken have been great, but I simply do not learn as much when I am not receiving face to face instruction. Some of my close friends have similar feelings toward online learning.	5/22/2020 12:32 AM
4	I really do not have anything negative to say-maybe more lesson planning practice? Writing a lesson plan was super overwhelming at first, it may have helped me to understand the basic framework before attempting to understand each detailed step.	5/20/2020 5:19 PM
5	Giving more study information regarding the Praxis.	5/14/2020 10:47 AM
6	Communication and organization within the department. It seems like none of the professors in any given block are on the same page, especially with the Special Education department. There are always discrepancies in information between professors. Sometimes they're flexible and other times, not so much. I wish I had someone who was well informed to tell me important due dates for TEP and Internship and get a consistent answer. For example, I didn't know this class was actually happening because I was told we would be updated, so I had to pull \$1200 out of thin air and also adjust my work schedule because of it.	5/13/2020 12:20 PM
7	Better communication Expectations laid out better Better organization of the blocks	5/11/2020 12:42 PM
8	Being in a special education classroom!! I haven't been in one once as I've been here. This is okay, but I wish I had the opportunity to be in a self-contained classroom or a resource room. I feel that in my professional career if I am put into one of those rooms I really won't have much of the experience as a lot of my peers. Finding ways to get involved in the community. I would love to have more opportunities to be in the community of special education.	5/11/2020 11:24 AM
9	The one thing that I do not like, as a graduate student, is that only certain courses are offered in certain terms. Because of this, it is taking me much longer than I would like to complete my Master's Degree (and only take 2-3 classes in a semester).	5/8/2020 10:29 PM

Q5 Please rate your level of satisfaction with the overall quality of your program.

Answered: 11 Skipped: 0

ANSWER CHOICES	RESPONSES
Very Satisfied	54.55% 6
Satisfied	36.36% 4
Neutral	9.09% 1
Unsatisfied	0.00% 0
Very Unsatisfied	0.00% 0

#	RESPONSES	DATE
1	Overall, this was a great course during this PANDEMIC. Dr. Cost has been excellent with helping and supplying the resources to further help her students.	5/22/2020 10:45 PM
2	I love Montevallo so much and could not picture myself getting my degree anywhere else!	5/22/2020 12:32 AM
3	I am confident that I am enrolled in the best program available! This is the best experience and although I have looked forward to having my own classroom since I was in elementary school, I will have a hard time saying goodbye to the people who make this program happen! 'Thank you' will never be enough!	5/20/2020 5:19 PM
4	I LOVED this online class. The text book was AMAZING! I never felt stressed, but I feel like I learned how to be the best 1st year SPED teacher possible. Dr. Cost is an amazing online teacher.	5/16/2020 2:21 PM
5	I just don't feel as prepared for real-world interactions as I should. Yes, you learn a lot by reading textbooks and writing lesson plans, but I just don't feel like our real-world experiences are as valued as those in elementary education.	5/11/2020 11:24 AM
