1	I am very impressed at how much progress this department has made, as a whole, in the past few years, this year particularly. I am so thankful that we have been able to dive deeper into being an EDHH program, including having a new degree plan, having EDHH classes, and having ASL classes. The new degree plan is truly a blessing to this department and I love that we are able to put our best foot forward, as we are the only department in the state.	5/22/2020 11:42 PM
2	I believe that my strengths in pursuing my degree are that I set apart from general education teachers because one, I am learning a new language and two, I am going into a field that is in high need of advancement, thus giving me room to grow and help future teachers and students.	5/19/2020 7:22 PM
3	I think the head of the program is our biggest strength. Dr. Edwards has only been here for 2 years, yet she has brought the program to where it needs to be. Before we were just going along with what there was, and I feel like I would not have been prepared to teach if I were to have continued in the old ways. Now she has completely revamped the whole thing in a way that is getting us ready for what we will be doing as teachers.	5/18/2020 2:27 PM

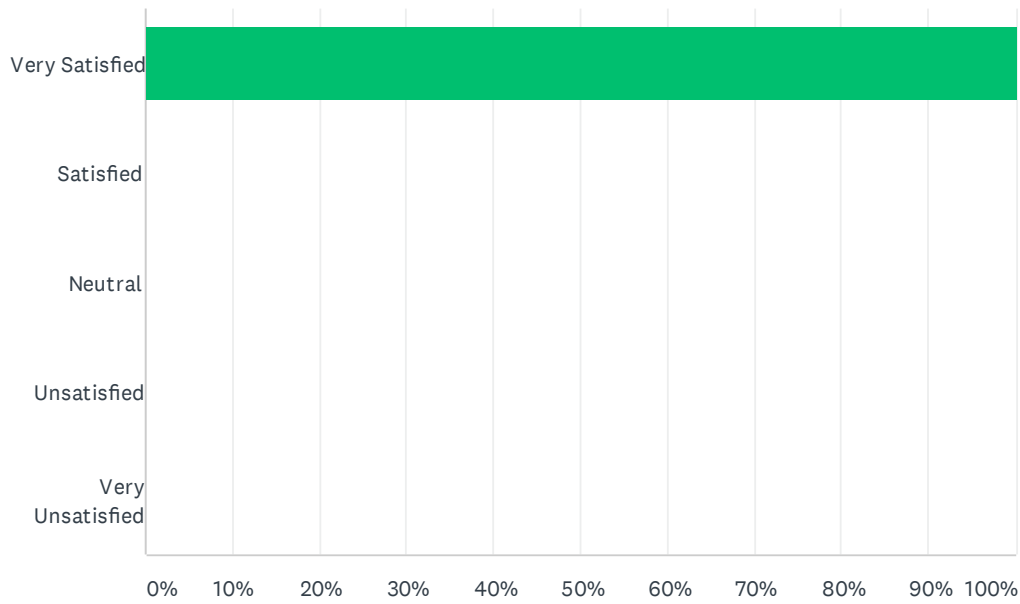

Q4 List those things that you perceive as growth areas or specific ways in which your degree program could be improved.

1	I am hoping in the near future, EDHH graduates will begin to take EDHH Praxis exams upon graduation, rather than SPED Praxis exams. I also hope to see UM recognize ASL as a foreign language on degree plans.	5/22/2020 11:42 PM
2	I believe there is always room for advancement in any field, but specifically, I hope that all DHH majors can be placed in the new education plan that is more specialized for our degree.	5/19/2020 7:22 PM
3	I believe that the only way our program could be improved is through the state testing requirements, which is already in the midst of being talked about with the state. Like I said before, Dr. Edwards has done a complete 180 with our program and she is doing an amazing job with it!	5/18/2020 2:27 PM
