Q3 List those things that you perceive as strengths or aspects of your degree program that are most valuable to you.

Answered: 19 Skipped: 0

#	RESPONSES	DATE
1	I love how kind and helpful all of my teachers are. I always feel like I have someone to go to if I am struggling.	10/29/2020 9:31 AM
2	The opportunity to be involved with active classrooms from the beginning of the degree program. I have gained valuable tips and strategies just from the observation hours I have completed so far.	10/27/2020 12:59 PM
3	Hours spent in classrooms in each block, as well as helpful professors	10/23/2020 9:00 PM
4	The professors are very willing to help and answer any questions we may have	10/23/2020 8:19 PM
5	In this program, the teachers are very caring and want us to do well. They keep us up to date on things and events that are happening. The program is very well put together and helps us to become the best teacher we can be.	10/23/2020 2:14 PM
6	Aspects that are most valuable to me is the content that we learn being applicable to my future job. This is important because it helps me to be better prepared to be a teacher	10/23/2020 11:52 AM
7	I like the idea of having 50 hours of observations, as I have learned as much from observations as I have my lectures. The tasks we are to do has also really helped, as we are not forced to sit there like an ant on a log.	10/22/2020 9:00 PM
8	1) I believe sending power points out helps us learn better	10/22/2020 8:33 PM
9	The advisors and professors seem to be very involved and communicate well with us.	10/22/2020 5:59 PM
10	All of my professors respond to questions and emails clearly and timely, and with an abundance of understanding for our concerns and fears.	10/22/2020 5:12 PM
11	Things that I perceive as strengths in my program are the needs for communication to students. Make sure to keep communication with the students in the classes	10/22/2020 4:44 PM
12	Observation hours are very helpful. Being physically in a classroom and watching how it functions is invaluable.	10/22/2020 4:42 PM
13	Lots of information was given and orientation to lab placement was phenomenal. The program seems really strongly put together. I love all of the professors.	10/22/2020 1:19 PM
14	Dr. Smajic and Dr. Campbell are VERY knowledgeable and it is clear they enjoy what they are teaching. They are always available to answer questions. They are well prepared and it is obvious they have worked very hard to make this difficult semester successful. They answer emails quickly and advocate for us in most areas.	10/22/2020 10:36 AM
15	My professors have attempted to help the best they could given the circumstances for the semester.	10/21/2020 2:17 PM
16	Great feedback from professors on all assignments, focus on preparation for edTPA and Praxis tests, assignments that are useful to our time in placement, frequent and open communication between professors and students	10/21/2020 1:56 PM
17	Being able to still get in the classroom experience	10/21/2020 1:54 PM
18	literacy instruction, making lessons engaging, meeting students' academic/social/emotional needs	10/21/2020 1:53 PM
19	content is good and useful for job experiences.	10/21/2020 1:51 PM

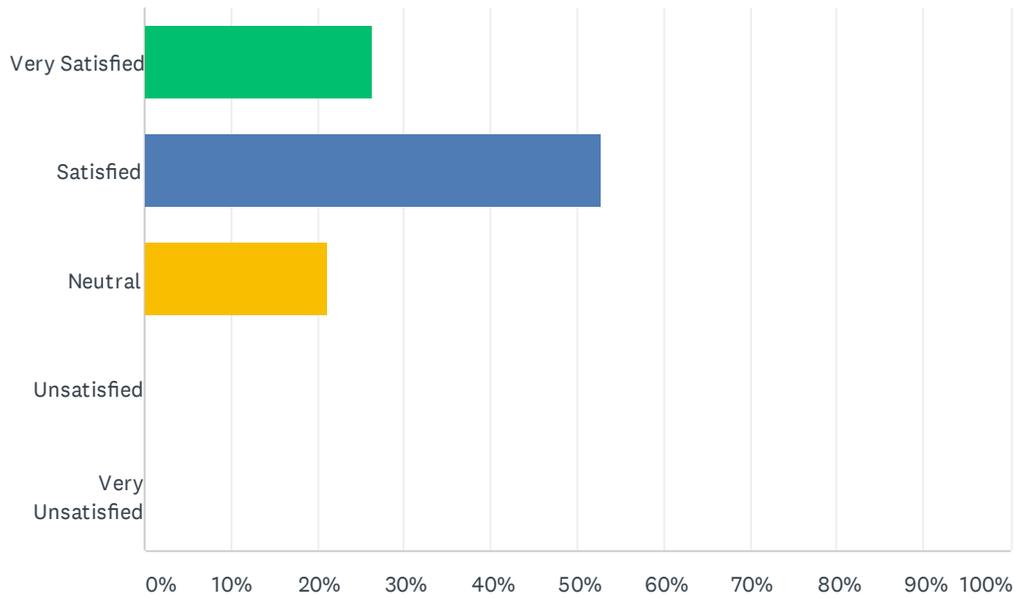

Q4 List those things that you perceive as growth areas or specific ways in which your degree program could be improved.

Answered: 18 Skipped: 1

#	RESPONSES	DATE
1	Most of the things I see struggle with are due to Covid-19. I understand that times are hard right now so I try to give understanding in those areas. I just wish we had more time in class to learn about lesson planning.	10/29/2020 9:31 AM
2	I have not noticed anything that can be improved significantly since I have only been in the program for nine weeks.	10/27/2020 12:59 PM
3	Time spent on lesson planning	10/23/2020 9:00 PM
4	Not stacking time consuming assignment in top of each other, being more open to providing more specific feedback	10/23/2020 8:19 PM
5	N/A	10/23/2020 2:14 PM
6	I do not view any areas of the program that need growth	10/23/2020 11:52 AM
7	I feel like this program (and this major) is not friendly to those who work jobs. Other majors have more flexibility regarding class times, and while this semester hasn't been that bad, what I am seeing in the later semesters shows a lot of time is going toward class, and that will be rough.	10/22/2020 9:00 PM
8	4 hour zoom calls are very hard to sit through I zone out very easily	10/22/2020 8:33 PM
9	There is a lot of information thrown at us at once. I wish there was a better organized place we could see it all at once.	10/22/2020 5:59 PM
10	It's hard to say with everything being virtual.	10/22/2020 5:12 PM
11	I'm certain that this probably would not have been an issue before covid, but being able to physically be in class or even just watch my professor teach in a zoom meeting is very important to me. I was rather disappointed to find out that most of my courses with zoom meetings that were supposed to happen this semester did not.	10/22/2020 4:42 PM
12	I felt as though i did not learn that much from the beginning of the sememester with lecture, as i did in lab placement. Not to say it was not important, but i believe better material could have been taught pertaining to lecture to prepare us for full time lab placement.	10/22/2020 1:19 PM
13	I wish that there was less teaching to the test (Ed.TPA) and more preparation for an actual classroom. I understand that theory, vocabulary and lesson planning are important but I feel like there needs to be more focus on classroom management, how to's and problem based learning. Dr. Smajic did a great job with this including strategies, and how to's for math. I also feel like confidentiality is lacking in ALL blocks at UM. I understand Professors work as a team however when there are issues, a student should not be fearful to share those concerns for fear of retribution.	10/22/2020 10:36 AM
14	Things I have been harder this semester than before, our professors had moments where it seemed like they were not on the same page together and there were times of a lack of communication.	10/21/2020 2:17 PM
15	Sometimes we get too much information at once and are left more confused than we were before. In the future, I would like it if we could have the information more organized and maybe do a regular update email instead of sporadic emails that aren't even consolidated into one section. Some are in our forum emails, some in canvas messages, some in announcements, etc. it gets very confusing and hard to organize.	10/21/2020 1:56 PM
16	Not being virtual would help but I understand	10/21/2020 1:54 PM
17	not enough time devoted to how to actually write & teach a lesson plan, need more information about mathematics instruction/about adapting lessons for students with special needs	10/21/2020 1:53 PM
18	There is WAY too much going on for 1 semester. The work load is extremely heavy.	10/21/2020 1:51 PM

Q5 Please rate your level of satisfaction with the overall quality of your program.

Answered: 19 Skipped: 0

ANSWER CHOICES	RESPONSES
Very Satisfied	26.32% 5
Satisfied	52.63% 10
Neutral	21.05% 4
Unsatisfied	0.00% 0
Very Unsatisfied	0.00% 0
TOTAL	19

Q6 Additional Comments:

#	RESPONSES	DATE
1	The past semester and this semester have been especially hard on everyone. I'm glad we can come together and mostly work everything out.	10/29/2020 9:31 AM
2	although this block is excellent and the professors overall are excellent. There has been a few times where we are loaded with lesson plan assignments and AMSTI training all within the same week or two time period and it was very overwhelming as it was out first time writing lesson plans for subject other than ELA and it was mentally exhausting.	10/23/2020 8:19 PM
3	The teachers are all so nice and quick to respond to emails. I know circumstances prevented us from meeting in person but overall the professors were very connected to us as much as they could be.	10/23/2020 11:52 AM
4	The professors are awesome!	10/22/2020 9:00 PM
5	There are some things that I really appreciate about this block, but I do frequently find myself overwhelmed by the sheer amount of important, yet disorganized information. Sometimes professors will just tell us things and not write them down and send them out or anything. It gets hard to keep up with even when you pay attention because there is often so much information given at once.	10/21/2020 1:56 PM
6	The workload is very heavy in this block. I understand this is necessary, but additional structure/guidance as we complete these assignments and attempt to fulfill our requirements would be helpful.	10/21/2020 1:53 PM
