

PROFESSIONAL LETTERS

Covers letters that are used to introduce candidates for professional positions tend to be more detailed. They serve as an accompaniment to your resume or curriculum vita. They are typically used to initiate contact and inquire about opportunities or to respond to a posted opportunity.

These types of cover letters, while still somewhat summative, generally provide information on behalf of a candidate that possesses more than one degree and some basic professional experience. The letter would include a more detailed overview of the candidate's experience, perhaps offering additional descriptors about the candidate's work functions. The letter might also include information about professional memberships, research, publications, presentations, licenses, and certifications.

The opening paragraph states your objective. The closing paragraph expresses your interest in following up. And the middle paragraphs are devoted to summarizing your professional experience and educational background.

COUNSELING | MENTAL HEALTH

I was excited to see your announcement posted for a Counselor position with the Chilton-Shelby County Mental Health Center. I believe I possess the necessary skills and credentials to meet your requirements and would like to submit my application for your review.
