Notes

*Cohort is defined as first time college students who were enrolled in the fall semester identified and started either in that fall semester or the summer immediately prior to the fall semester identified.*

*Retention is defined as students enrolled in the fall semester who returned the following fall semester, 1 year later in any bachelor degree program at the university.*

*Persistence is defined as the percentage of students who either returned to the University or graduated with a bachelor degree from the University by the specified point in time.*

*Graduated is defined as a having graduated from any bachelor degree program at the University by the specified point in time.*
