NAME: _____

SCORE: _____

Taking the Assessment

- This assessment contains 70 questions. For each question, you are asked to select one of two possible answers.
- For each question, indicate your response by checking either (a) or (b).
- Answer each question as quickly as possible. The best choice for each question is the first response that occurs to you without too much deliberation. Do not over-analyze or over-scrutinize your response.
- When you have answered all 70 questions, transfer your responses to the scoring grid on the last page.

Scoring the Assessment

- Using the scoring grid, add down so that the total number of "a" answers is written in the box at the bottom of each column. Do the same for the "b" answers you have checked. Each of the 14 boxes should have a number in it.
- Transfer the number in box no. 1 of the answer grid to box no. 1 below the answer grid. Do the same for box no. 2. Note that you have two numbers for boxes 3 through 8.
- Bring down the first number for each box beneath the second, as indicated by the arrows.
- Now add all the pairs of numbers and enter the total in the boxes below the answer grid, so each box has only one number.
- Now you have four pairs of numbers. Circle the letter below the larger numbers of each pair. If the two numbers of any pair are equal, circle neither but put an "x" below them and circle it.
