ALABAMA TRAFFIC SAFETY CENTER (ALTSC)

Since 1974, the ALTSC has been tasked to serve the state of Alabama through the delivery of training and educational programming in the areas of driver, motorcycle and other traffic-related topics.

TRAFFIC COURTS

Traffic courts are the front lines for addressing poor driving but sentencing drivers with fines alone doesn't create lasting behavior changes. Retraining them with better skills and improved attitudes is essential, especially for young or repeat offenders.

ALTSC has partnered with the National Safety Council to offer leading-edge curriculum based on research into best driving practices, techniques and choice theory.

To allow the courts flexibility in sentencing, ALTSC offers a selection of effective, relevant courses to address the retraining needs of drivers of all ages, driving records and violation severity.
