

Reference guide for understanding the schedule.

We understand it may be confusing whether or not an online class has set meeting times or not, and we hope this helps. **When in doubt or you have a question, contact the course instructor, the department offering the course, your academic advisor, or the Registrar's Office.**

Search for a class, click in the box to display the items within the area of your search. You can search more than one subject.

Campus (CMP)

- MA Main campus, in person typically on campus, may be hybrid or fully in person
- OL Online, may be synchronous or asynchronous
- SA Study Away/Abroad

Instructional Method

This tells you how the course will be delivered to you and if you are expected to be in class or online at a certain time.

You can search by a particular Instruction Method by using the Advanced Search feature (below for more information).

In person (Traditional)?

If the course lists days, times, and a location, the course will meet in person at regularly schedule times. Students are expected to participate in person during the scheduled class meeting times. These classes are eligible to request remote instruction during Spring 2021.

CRN	Subject	Course	Section	Title	Hours	Campus	Meeting Times
80616	ENG	101	001	Composition I Lecture	3	Main	S M T W T F S 10:00 AM - 10:50 AM

Online with regular meetings (synchronous)

If the online course lists days and times, then that course will meet online at the stated days and times. Just like an in-person class, only online. Students are expected to participate online during the schedule class meeting times.

CRN	Subject	Course I	Section	Title	Hours	Campus	Meeting Times
80388	MATH	144	301	Pre-Calculus Algebra Lecture	3	Online	S M T W T F S 12:30 PM - 01:45 PM Type: Lecture Building: None Room: None Start Date: 08/21/2023 End

Online with no regular meetings (asynchronous)

If the online course does not list days and times, then the course will not have scheduled meeting times. The course will have deadlines for assignments and other graded activities students will have to follow.

CRN	Subject	Course I	Section	Title	Hours	Campus	Meeting Times
80666	ENG	101	301	Composition I Lecture	3	Online	S M T W T F S - Type: Lecture Building: None Room: None Start Date: 08/21/2023 End Date: 12/08/2023

Hybrid

A hybrid course will meet both in person and online, but will meet more online than in person. A Hybrid course looks very much like an all in-person course on the schedule, with days, times, and physical location included. Faculty will communicate with students and include on the syllabus which class meeting students are expected to attend in person and which they are expected to attend online.

Distance Education (login-drop in)

This option is mainly only available for graduate courses. This is an in-person course with the option to log in at regularly schedule class meeting times instead of attending in person. A Distance Education course will look the same as other in person classes on the schedule, including days, times, and physical location listed. Faculty will communicate details closer to the beginning of the semester.

Advanced Search

Using the Advanced Search function will allow you to search for courses using a specific Instructional Method, course level, on specific days, or taught by a particular Faculty member.

CRNs

The CRN is another identifier of the course. You will need this if you are trying to register for a class that you have been given special permission to attend when the section has no seats available.

CRN	Subject	Course	Section	Title	Hours	Campus	Meeting Times
83677	AC	221	001	<u>Principles of Account...</u> Lecture	3	Main	S M T W T F S 10:00 AM - 10:50 AM

Additional Course information

At any time, you can hover your cursor or click on the title, meeting times and instructor or status to get additional information to display in a pop-out box.

Distance Education Handbook

If you will be taking online, hybrid, or distance education courses, you should review the Student Distance Education Handbook. This handbook contains guidelines and policies to ensure the quality and rigor of UM's distance education courses in terms of instructional delivery, learning outcomes, and student experience.

You'll find the handbook here: [Student Distance Education Handbook](#)
